BLACK - BLITZ²

compact

NSN 6230 - 66 - 126 - 6691

**Long Range High Intensity
IR Strobe (780 - 1000nM)**

- Dedicated Beacon emits only invisible IR safe from accidental white light spill .
- Penetrates Rain Forest Tree Canopy
- Operates in all environments:
Arctic to Desert
- Waterproof to 450 metres
- Activation: Manual/Trip line/Encoded Radio Control/Hydrostatic Switch

BLACK - BLITZ™ is the covert IR version of the in-service **SAR** Strobe. It shares all the field proven features engineered into the **SEE - BLITZ™**, with flexibility of configuration from hand held beacon to enhanced fixed location marking system.

The **BLACK - BLITZ™** is ideally suited for **Special Ops / Low Intensity Conflict** applications; marking **ALGs** and especially in the critical role of **IFF**.

Physical Platform:

identical to the Mil.Vers. **SEE - BLITZ™**
accepts all **SEE - BLITZ™** enhancements and accessories

Emission Wavelength:

780 nanometres to 1000 nanometres

Detection:

suitable for all Night Vision Viewers

Power Source:

1 2 3 or 4 AA Alkaline/Lithium

Waterproof:

450 metres

Range:

16 Kilometres

Certified Explosion protected to Ex s II Zone 1 & 2

Casing	PBT
Light Wand	Polycarbonate
Springs & Contacts	Nickel Silver
Swivel & External fittings	Marine Stainless (316)
Dimensions	180mm Long X 49mm Diameter (Average)
Weight without batteries	240 grams
