

TAG -POL

Alternate RED / BLUE Flash Personnel Marker

TAG -POL is the continuing development of the “TAG” family of personnel light Markers.

Based on the same operationally proven Mil. **TAG - IR**; the **TAG -POL** is designed as a high reliability eye-catching light marker for Law Enforcement & Industrial Safety applications.

Its small size enables the **TAG -POL** to be worn on Safety Helmets, Hats, Uniform Epaulettes anywhere on the Body or Belt.

For Aerial Identification of on ground personnel the **TAG -POL** can be worn vertically mounted on a cap/headband.

Typical Acquisition at Dusk: 100 metres

Power Supply:

Physical Format: 1 x AA Cell or 1 X AAA Voltage input: 1.2V / 1.5V / 3.0V / 3.5V
This corresponds to all the voltages that are available in the AA (IEC code R6P) size and prevents accidental damage to the light.

Battery Life:

Minimum 40 Hours continuous
with 1 AA Alkaline Battery or NiMH Re-chargeable

Environmental:

Waterproof / Immersion to 10 m
Withstand 2 metre drop to ground.
Withstand static weight 80Kg.
Fuel & NBC warefare decontaminant proof

Material:

Engineering Plastics: GFN
Weight: 45 Grams without battery
Operating Temperature -35 to 80°C

Dimensions:

Length: 65.0 mm Height: 21.0 mm
Width: 45.0 mm 52.0 mm with strap loops
